

To Whom it may Concern:

I listen to K-Love in Phoenix, AZ on the following translators: 105.5, 89.1 and 100.9 FM. I am writing in hopes that you will continue to allow K-Love to broadcast using FM translators.

K-Love serves me in a way that no other radio station ever has. It not only plays the music that I enjoy listening to, but also encourages me in my everyday life. I can listen to this station without fear of what message the lyrics of the songs are sending to my child.

If K-Love were to be displaced by LPFM, there would be no other station of it's kind to encourage and uplift the people who need it. I believe K-Love brings a unique, positive and uplifting message to the community and hope that you will continue to allow them to broadcast. Thank you for your time.

Sincerely,  
Blythe Heffelfinger
